

SB 380

Call Script:

When calling need to state your name and city.

Hi, My name is _____, and I am calling to strongly urge District Member _____ to oppose SB 380 provide easier access to assisted suicide. The Legislature should not prematurely eliminate the law's evaluation timeline with incomplete data, especially given the introduction of a worldwide pandemic. Rather than addressing the persistent MediCal question of unequal access to quality hospice and palliative care for the underserved and needy, SB 380 offers the state a cheaper solution.

Optional: Can add personal story/testimony

SB 245

Call Script:

When calling need to state your name and city.

Hi, My name is _____, and I am calling to strongly urge District Member _____ to oppose SB 245 expands abortion by removing deductible, copayments and other cost sharing. SB 245 will make only one “choice” more accessible for women, particularly those who are challenged economically or have a less than adequate health plan. Offering state-funded abortions as the easiest alternative to pregnancy undermines the ability of the state to promote the value of diversity and true empowerment of women. But in the name of “choice” inviting them to end the life of their unborn child is not a compassionate or morally responsible choice.

Optional: Can add personal story/testimony
