New	Great Resource: Answering questions about human existence
English	
<p>The new book "Science, Reason, and Faith" by Fr. Robert Spitzer, SJ, explores in depth the Bible and the intersection of three realms that the secular world tells us are separate and incompatible. Fr. Spitzer draws the modern reader's attention to the many seeming conflicts between science, reason, and Catholic teaching. By tackling these difficult questions, he shows that it is precisely through the integration of science, reason, and faith that we can truly discover ourselves, our world, and our God. You can purchase it at www.osvcatholicbookstore.com/</p>
