RE: **Updated COVID-19 Occurrence Reporting Requirements**

Effective January 1, 2024, with the expiration of Labor Code 3212.88, employers are no longer required to report employees testing positive for COVID-19 to their Workers' Compensation administrators. **You are no longer required to complete the Occurrence Reporting with LWP.**

COVID-19 will once again be treated as a non-occupational disease in the workers' compensation process. Claims filed with a date of injury on or after this date will be investigated for the additional requirements to prove if they could be work related.

If you have any questions or concerns, please contact the Office of Lay Personnel at 916.733.0239.
