Memo

To: Pastors, Parochial Administrators, Parish Stewards, School Administrators
From: Glen Faulkner, Parish Security Coordinator
Date: August 11, 2025
Re: Updated information re: 2025 Non-profit Security Grants

CalOES provided limited information updating the notice of funding opportunity (NOFO) for the 2025 federal non-profit security grant and new information about the 2025 state grant.

As described in last week's memo about the federal NOFO, FEMA released this announcement with August 11 (today) as a deadline for grant applications. CalOES, FEMA's state administrative agency for this grant, typically requires non-profit organizations to submit applications to them before the federal deadline. In this case, CalOES did not distribute any information to non-profit organizations about this grant except to say information is forthcoming.

Last week CalOES advised the deadline for submitting applications for the federal grant has not been finalized but is likely to be in the next two to three weeks since the process must be completed by the end of the federal fiscal year (September 30).

CalOES will publish a Grant Management Memo when they complete the timeline for submission. That memo will be located at:

<https://www.caloes.ca.gov/office-of-the-director/policy-administration/finance-administration/grants-management/homeland-security-emergency-management-programs/memos/>.

CalOES also said the state non-profit security grant program (this is the CalOES version of the FEMA grant) has been funded and will be released sometime in the next three weeks.

Any parish or school seeking information about these grants should sign up with CalOES for information at:

nonprofit.security.grant@caloes.ca.gov (for the federal grant)

and:

CSNSGP@caloes.ca.gov (for the state grant).
