---

The Central California Intelligence Center (CCIC) and the Chico Police Department are presenting a program covering important security topics for houses of worship and schools. The six-hour class will cover identifying common security vulnerabilities, safety team responsibilities and limitations, and grant opportunities.

The class is scheduled from 8:00 AM–2:00 PM on October 21. The class will be in Chico but the exact location will be sent to participants only after registration. Lunch will be provided.

This will be a great opportunity to learn about the fundamentals of parish/school security, developing safety teams, and exploring grant opportunities that can support these initiatives. After last month's shooting in Minneapolis, there will be a lot of interest in this class, so I encourage you to register early.

Please see the attached flier for registration information.
